**General Education Requirements Met**

SUNY  
Natural Sciences

JCC  
Scientific Reasoning

---

**Student Learning Outcomes:**

Students who demonstrate understanding can:

1. Develop Laboratory Techniques for Microbial Identification: gain hands-on experience with laboratory techniques such as microscopy, culturing, and biochemical tests to identify and differentiate microorganisms in clinical and environmental samples.
2. Demonstrate proficiency in maintaining a sterile work environment, properly handling microbial cultures, and using appropriate safety protocols to prevent contamination and ensure safe laboratory practices.
3. Demonstrate an understanding of the methods scientists use to explore natural phenomena, including observation, hypotheses development, measurement and data collection, experimentation, evaluation of evidence, and employment of data analysis or mathematical modeling. - Course grade is determined by the instructor based on a combination of factors, including but not limited to, homework, quizzes, exams, projects, and participation. Final course grade can be translated into a grade point value according to the following:

A=4.0	B+=3.5	B=3	C+=2.5	C=2	D+=1.5	D=1	F=0
-------	--------	-----	--------	-----	--------	-----	-----

- Veterans and active duty military personnel with special circumstances (e.g., upcoming deployments, drill requirements, VA appointments) are welcome and encouraged to communicate these to the instructor.
